Results-driven Senior Frontend Developer with 10+ years of experience building high-performance web applications using React.js, Svelte, and modern UI frameworks. Proven track record of delivering user-friendly interfaces for 200K+ users across 400+ schools. Adept in performance optimization, WCAG accessibility, and leveraging AI tools like GitHub Copilot and ChatGPT for rapid development.

Work Experience

Senior Frontend Developer

Aug 2018 - Present

Knowledge Platform | Islamabad (hybrid)

- Built scalable React.js and Svelte-based LMS platforms for 200,000+ users in 400+ schools across APAC.
- Developed enterprise-grade CMS and competition systems for 5+ high-profile clients.
- Improved app speed by 40% using lazy loading, code splitting, and dynamic imports.
- Ensured WCAG-compliant, cross-browser responsive UIs from Figma/Sketch designs.
- Integrated Tailwind CSS, Bootstrap, and Material UI for consistent UI/UX standards.
- Boosted productivity with AI tools (GitHub Copilot, ChatGPT) for code suggestions and refactoring.
- Collaborated with backend teams and PMs to align features with user needs and project goals.
- Mentored 4+ junior developers via code reviews, pair programming, and training sessions.
- Managed version control and workflows using Git, GitHub, and branching strategies (Git Flow).
- Handled deployments and resolved post-release issues based on user feedback.
- Organized internal tech talks, team-building events, and cross-functional knowledge-sharing sessions.

UI/UX Developer

Aug 2016 - Aug 2018

TEO International | Islamabad (Onsite)

- Worked on multiple real-time Danish projects involving complex web and mobile applications.
- Designed web and mobile app interfaces with a strong focus on user experience and responsiveness.
- Converted PSD designs into clean, semantic HTML using modern frontend standards.
- Implemented responsive layouts using media queries for cross-device compatibility.
- Developed interactive features using JavaScript, jQuery, and AngularJS (version 4).
- Optimized application performance by applying best practices for code splitting, lazy loading, and caching strategies, resulting in faster load times and improved user experience.
- Collaborated with cross-functional teams following Scrum methodology.
- Communicated daily with Danish clients via email and Skype for requirement gathering and updates.
- Managed company trips, coordinating logistics and team-building activities.

Frontend Developer

Jan 2015 - Aug 2016

Global Bridge Solutions | Islamabad (Onsite)

- Developed customer-facing e-commerce features and CMS using modern JavaScript frameworks.
- Implemented responsive designs using HTML5, CSS3, and JavaScript ES6+.
- Integrated RESTful APIs in collaboration with the backend team for seamless functionality.
- Optimized website performance, improving page load times by 25% to 30%.
- Performed UI testing and ensured cross-browser compatibility for consistent user experience.
- Partnered with clients to deliver customized e-commerce solutions and CMS tailored to their business needs.
- Designed and developed custom WordPress themes and UI/UX mockups for small businesses and startups.
